

PROTECT ROWLEY OWLS

Rowley Owls Nursery is under threat from drastic proposals.

The nursery puts in place the **essential** building blocks of education in a safe, social and fantastic environment.

Rowley Hall Primary School Governors plan to cut the service this nursery provides to local children and their parents, by integrating it into the school and removing the provision of care for 0-2 year olds.

With the inevitable loss of staff resulting from these proposed changes, this wonderful nursery will suffer and no longer be able to provide the standard of care and support to parents and the community it now does.

Once the drastic proposals are put in place the damage will be irreversible!

What does it mean?

Loss of all year round care! Loss of provision for 0-2 year olds! Loss of Nursery staff!

We want the Council/Councillors and local MP's to listen to residents, the public and the nursery to prevent these drastic changes that will result in irreparable damage to a fantastic community nursery.
